Features/Specs on reverse >>

Lightning transfer between iPhone, iPad and Mac/PC.

Strontium® iDrive USB 3.0 can securely store and share digital contents such as movies, pictures, and music from your iPhone and iPad to your Mac or PC computer and vice versa with amazing transfer speed using its dual 8-Pin lightning and standard Type A USB 3.0 connectors.

Equipped with both a lightning & standard USB 3.0 dual connector.

With Strontium® iDrive Standard Type A USB 3.0 connector - compatible with USB ports equipped in traditional PCs and backwards compatible with USB 2.0 - storing and sharing music, photos, or videos is rapid and easy. Strontium® OTG drive's lightning connector means that data and files can be conveniently downloaded to and from your iPhone and iPad.

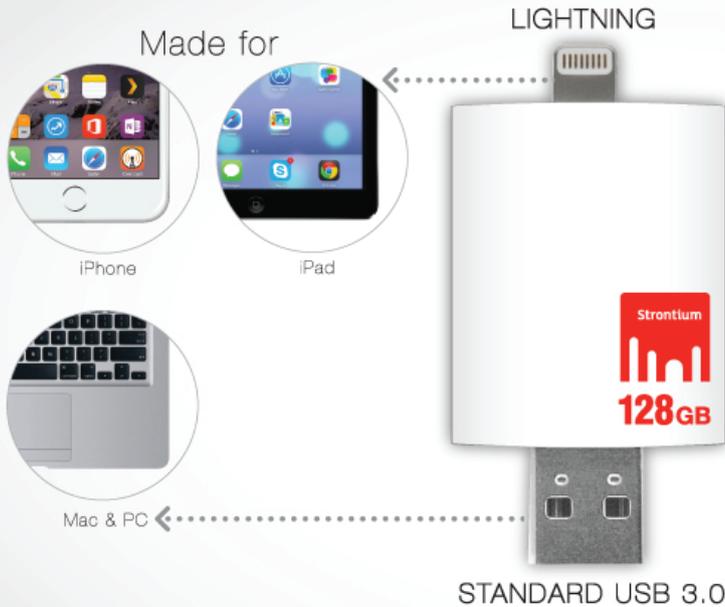

Free APP for auto file management and enhanced data security.

i-FlashDrive ONE APP allows for easy file management like copy, delete, move, add text files, lock, copy from library. You can also restore and backup contacts, calendars and camera roll, automatically.

Expansion solution for your iPhone and iPad. For iPhone and iPad without a microSD card memory slot, Strontium® iDrive can be your next expanded storage solution up to 128GB with just a simple plug in and go; minus the baggage of bulky USB cables.

Memories deteriorate. Strontium® doesn't.
